

Swing-Arm Forklift Boom

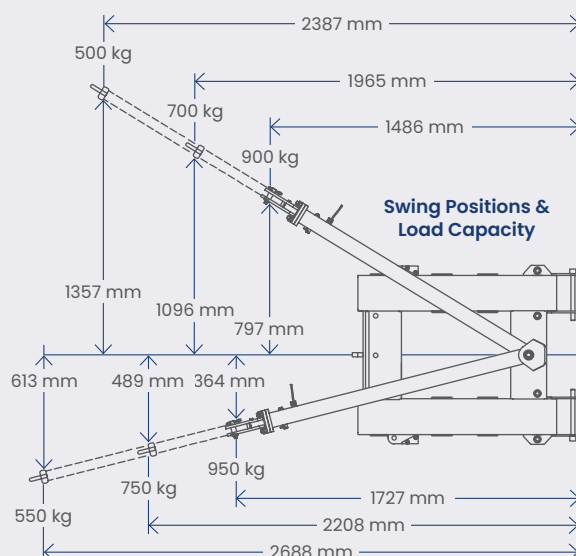

Fork Spacing

Reach & Load Capacity

Swing Positions & Load Capacity

DESCRIPTION

The Boom Boy Forklift boom connects to a forklift truck to lift and transport composite panels, glass and more.

This innovative Swing-Arm Forklift Boom attaches to your forklift and extends its reach, allowing you to safely and efficiently move heavy panels.

With its adjustable length and durable construction, these Forklift Attachments are a must-have for any workplace dealing with large lifting.

FEATURES

- Easy to adjust lengths for many different load capacity levels
- The swing-arm has 4 lock points and various angles with lengths extended up to 109 7/16" (2780 mm) to increase safety for operatives and panels
- Forklift Attachments can move panels in any direction needed
- High workload limit up to 6160 lbs (2800 kg)
