Cladding Vacuum Lifters

SWL up to 800kg

Delivery £105

Collection £105

Servicing £170*

The pricing for Clad Boy services listed is based on standard RW-style or flat/MR panels. If you have more specialised panels like Steadmans, Louvre, or Curvewall, additional costs may apply due to the need for specialised suction pads. Please contact hire@vaclifting.co.uk for further pricing.

Please Note: Clad Boy CB3 prices on request.

Clad Boy CB4 – The only recommended vacuum lifter for the Kingspan PowerPanel

////// KINGSpan POWERPANEL

When installing Kingspan PowerPanel, it's essential to use the right equipment to prevent damage. The Clad Boy CB4 Single Circuit Vacuum Lifter is specifically designed to handle these panels without applying suction to the solar modules.

✓ Kingspan Approved Solutions

Developed in collaboration with Kingspan for seamless compatibility.

✓ Enhanced Safety

Reduces manual lifting risks and ensures secure handling.

⚙️ Efficiency & Precision

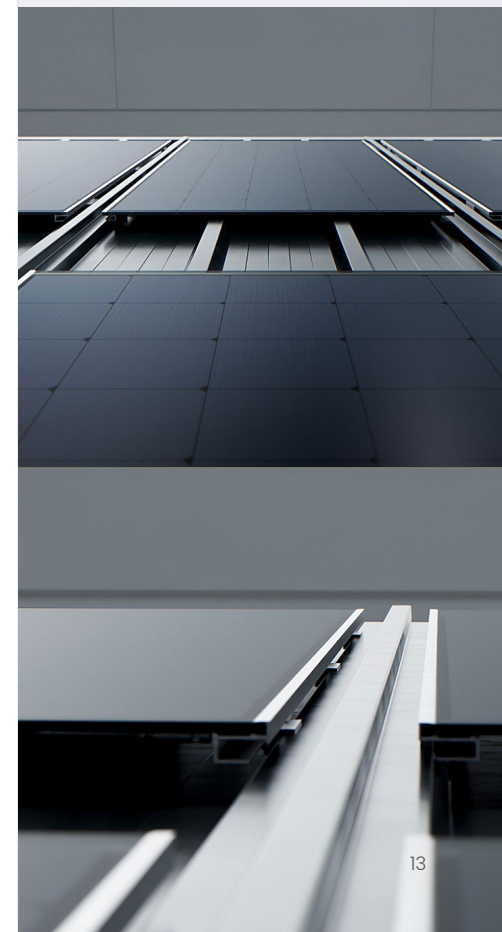

Speeds up installation while preventing damage.

👥 Expert Support & Training

Onsite training and full support to ensure safe and proper use.

Why lift, when you can roll.

Move heavy building materials **faster, safer**, and with **less strain**.

liftroller® uk

Still moving materials by hand?

Manual handling injuries cost the construction industry time, money, and labour.

- ◆ Increased productivity
- ◆ Cost Savings
- ◆ Improves H&S by reducing manual handling
- ◆ No training required
- ◆ Nationwide Hire solutions for all projects
- ◆ Flexibility of moving the Liftroller systems between floors if required

Moves materials like:

- Drywall & Plasterboard
- HVAC & M&E units
- SFS, Ceilings, Steel beams
- Flooring & Carpets
- Timber, Furniture, Glass & more

Sectors we support:

- Refurbishment & Fit-Out
- Residential & Commercial
- Healthcare & Education
- Mixed-Use & Manufacturing

See on site cost savings.
LIFTROLLERUK.COM

liftroller® wall

A cantilever loading rolling platform that can be placed in apertures in the building to form a conveyor belt for transporting materials in and out of the respective floors.

- 📦 Carry Up To **1,200kg**
- 📏 Adjustable **1,200–1,700mm**

Streamlining complex logistics with Liftroller Wall & E-Wagon

The Salisbury Square Redevelopment forms part of the wider transformation of the Fleet Street Estate. The project will deliver a state-of-the-art combined court facility alongside the new City of London Police headquarters. The site consists of nine existing buildings, all owned by the City of London Corporation, with a combined footprint of approximately 5,550 sqm.

With sustainability and modern construction practices at the core of the project, Mace required an innovative, efficient approach to material handling and on-site logistics.

- 📦 Salisbury Square Redevelopment
- 📦 New Build/Refurbishment
- 📏 5,500 square metres
- 🔧 Contractor: MACE Ltd
- 📍 Installer: Errigal Group
- 📍 London, UK

View the full MACE case study at:

[LIFTROLLERUK.COM](https://www.liftrolleruk.com)

THE RESULTS

A safer, faster and easier logistics solution for the site team.

Significantly reducing manual labour and eliminating the need for operatives to manually handle materials down scaffolding.
